Sienna Rampvan-Product Highlights

Through an exclusive partnership, BraunAbility and Toyota have worked together to create the Sienna Rampvan – a first-class accessible vehicle that offers many innovations and advantages. Here are just a few:

Automatic Door

The original Toyota door mechanism opens the sliding door at the touch of a button. The door can be operated with the standard remote control, or with an interior control switch.

Remote Control

The accessibility functions can be controlled by the Toyota remote and several interior switches placed for your convenience.

Kneeling Suspension

The Sienna Rampvan features a "kneeling" system to make boarding even easier. An actuator lowers the rear suspension while the door opens, which reduces the slope of the automatic ramp.

Removable Seating

Both the driver and passenger seat can easily be removed for those who wish to ride up front or drive. By simply unlocking the seat base from the vehicle, the entire assembly can be rolled out of the vehicle via the ramp and reinstalled just as easily when needed.

Automatic Ramp

The lightweight aluminum fold-out ramp offers unparalleled ease of access for wheelchair and scooter users. In the event of power failure, both the door and ramp can easily be operated manually.

Lowered Floor

The Sienna Rampvan's floor is lowered from the firewall to the rear axle. With a choice of three securement positions, wheelchair users can enjoy the ride — and the view — from their chair. The lowered floor offers maximum headroom and maneuverability for even the largest of wheelchairs and scooters.

Additional custom modifications are available through Braun Ability and other mobility dealers.

¹ Airbag Notice: The Toyota Mobility features a driver & front passenger airbag Supplemental Restraint System (SRS) which usually activates in a full-frontal collision of sufficient magnitude to inflate the bags. In moderate frontal collisions, the airbags may not inflate, in a rear or side collision the airbags are designed not to inflate, so the primary protection is provided by the lap and shoulder belt system. The Toyota Mobility also features a front seat-mounted side airbag and a roll-sensing front and rear head/ side curtain airbag Supplemental Restraint System (SRS) which usually activates in a side-impact collision of sufficient magnitude to inflate the bags. Seatbelts must be worn at all times by all occupants.

Features are listed pre-modification and certain items may not be available upon Rampvan conversion.

Toyota Canada Inc. Every effort has been made to ensure the specifications and equipment shown are accurate based on information available at time of printing. In some cases, certain changes in standard equipment, options or product delays may occur which would not be reflected in this brochure. Toyota Canada Inc. reserves the right to make these changes without notice or obligation. The Toyota website toyota.ca — or your Toyota Dealer is your best source for up-to-date information.

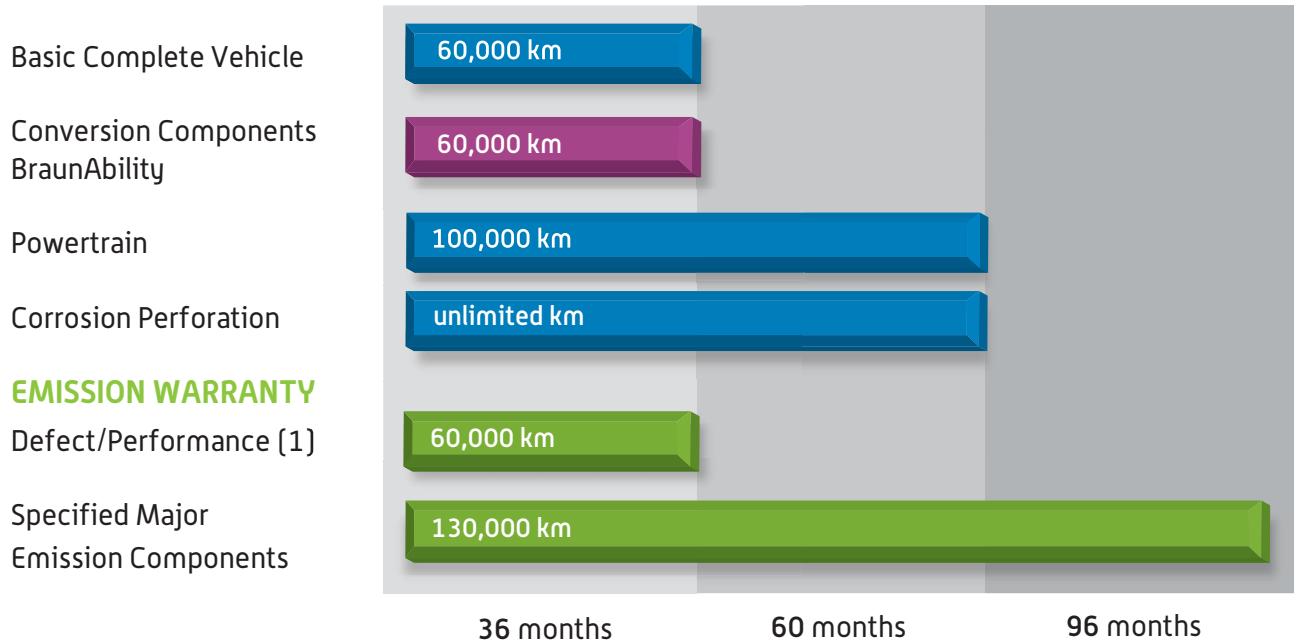

Specifications are listed pre-modification and certain dimensions may change upon Rampvan conversion

Door Opening Usable Width (Slide Door)	A	33"
Door Opening Usable Height (Slide Door)	B	56"
Interior Height at Center of Van*	C	60"
Interior Height at Driver & Passenger Position**	D	59"
Ramp Length	E	52"
Ramp Width (Usable Clear Opening)	F	29"
Ramp Angle (Vehicle Kneeled/Power Conversion)	G	7.6°
Interior Floor Length (Behind Front Seats)	H	48-1/2"
Overall Interior Floor Length (Flat Area)	I	82-1/2"
Interior Width at B Pillars	J	61-1/2"

All dimensions are for reference only. Due to manufacturing tolerances both with the OEM vehicle and the conversion components, all dimensions may vary slightly from those shown.

Warranty Information

(1) Performance warranty (related parts) coverage is for 24 months or 40,000 km, whichever comes first.

Toyota Mobility Assistance Program

In addition to providing products like the Sienna Rampvan to assist the mobility of Canadians, Toyota Canada Inc. offers up to \$1,000 in funding to qualified applicants through the Toyota Mobility Assistance Program. The funding is designed to assist customers who must modify their vehicle with mobility-specific aftermarket parts or driving aids, so that they may enjoy the Toyota vehicle of their choice.

*Conditions apply, please see the application for full rules and regulations.

How to Order

Visit your family doctor for referral to a registered physical therapist. The physical therapist will perform an assessment to determine your suitability to drive and what driving aids are necessary to assist you. Please then consult your nearest Toyota dealership for assistance in placing your order and locating a BraunAbility-approved dealership from which to take delivery of your new vehicle. The BraunAbility dealership will source your new Sienna Rampvan either from existing inventory, or place the order with Toyota for delivery at a future date.

*Based upon your physical therapist's driving assessment, additional vehicle modification(s) may be necessary.
